Marine & Stationary Diesel Engine Oil

## Product description

**Delo<sup>®</sup>1000 Marine** is a lower alkaline reserve (12 Base Number) trunk piston engine oil (TPEO).

## Customer benefits and product features

### Customer benefits

- **Maintains power output**  
The detergent/dispersant additive system helps provide control of high temperature deposits in areas such as the undercrown of the piston and the piston ring belt area, helping piston rings to function efficiently.
- **Designed to prolong oil life**  
Base Number (BN) level and excellent alkalinity retention characteristics help maintain high BN to help ensure that corrosive acids formed by the combustion of fuel sulfur are effectively neutralized, thereby helping to minimize liner wear.
- **Efficient purifying system performance**  
Excellent water separation characteristics enable water to be centrifuged out with minimal loss of additive.

### Product features

- Delo<sup>®</sup>1000 Marine is designed for use in medium- speed trunk piston engines burning distillate fuels with sulfur content up to 1.5% in marine or stationary service.
